Program objectives:

- To ensure the traceability of food.
- To secure a high-quality system of food control.
- To help improve the operating conditions for food business operators.

Topics covered:

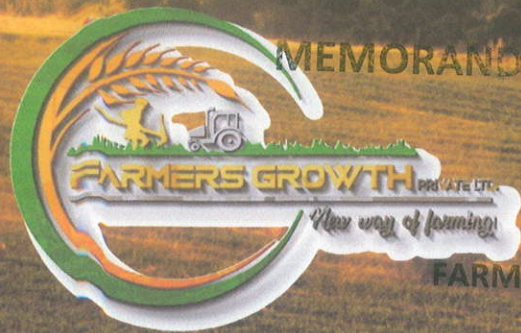

- Food contamination
- Safe food handling procedures
- Manufacturing control

Program outcomes:

The purpose of a food safety management system is to ensure that food is safe to eat and will not lead to outbreaks of foodborne illness among consumers. This also includes managing kitchen safety. Food incidents or concerns about the safety of food and whoever is preparing it can harm the food business operator's reputation in the industry.

Program objectives:

- To provide attractive landscape of roadside.
- To provide shape and comfort to road users and make journeys more comfortable.

Topics covered:

- Propagation
- Pruning
- Transplanting

Program outcomes:

Trees or plants may be propagated by seeding, grafting, layering, or cutting. In seeding, seeds are usually planted in either a commercial or home nursery in which intensive care can be given for several years until the plants are of a size suitable for transplanting on the desired site. In soil layering, the shoots, or lower branches of the parent plant, are bent to the ground and covered with moist soil of good quality.
