About the college

The Ideal College of Arts & Sciences, Kakinada is one of the earliest Aided colleges in the state traversing through the events of modernizing the University education system, especially the new vision of the National leaders in the advent of Globalization and Liberalization.

The vision of the college is to create a mighty educational institution providing opportunities to the students, like innovation, and the ability to analyse and enhance capabilities. The college offers instruction in all the important core subjects at the Degree level. It has two P.G courses conferred Autonomy by UGC and Accredited with B Grade by NAAC, Bangalore in IInd Cycle.

The forerunners of the College are the late Dr. P.V.N. Raju, a great patriot and educationist, the late Dr. N.S.R.Sastry, the former President, Dr.P.Chiranjeevini Kumari, Secretary & Correspondent of the college and other veteran members of the Governing Body.

About the FDP

The Evaluation Methodology is a tool to help one better understand the steps needed to do a quality evaluation. By following this process, a faculty member can learn what he or she needs to know to determine the level of quality of a performance, product, or skill. The discussion and examples of the use of this methodology are geared towards the evaluation of student learning. Much of the terminology used in this methodology is taken from the module Overview of Evaluation.

About the college

The Ideal College of Arts & Sciences, Kakinada is one of the earliest Aided colleges in the state traversing through the events of modernizing the University education system, especially the new vision of the National leaders in the advent of Globalization and Liberalization.

The vision of the college is to create a mighty educational institution providing opportunities to the students, like innovation, and the ability to analyse and enhance capabilities. The college offers instruction in all the important core subjects at the Degree level. It has two P.G courses conferred Autonomy by UGC and Accredited with B Grade by NAAC, Bangalore in IInd Cycle.

The forerunners of the College are the late Dr. P.V.N. Raju, a great patriot and educationist, the late Dr. N.S.R.Sastry, the former President, Dr.P.Chiranjeevini Kumari, Secretary & Correspondent of the college and other veteran members of the Governing Body.

About the FDP

Intellectual property is the outcome of human intellect. In other words we can say that intellectual property is an idea of mind that got transformed into a physical form which is commercially viable and which improves the quality of life of humans. Although, there is an abundance of creative and innovative energies which are flowing in India still, much of the Intellectual Property (IP) created remains unprotected. The probable reasons could be a lack of awareness, weak infrastructural support and perceptual mind blockages related to the complicated procedures

About the college

The Ideal College of Arts & Sciences, Kakinada is one of the earliest Aided colleges in the state traversing through the events of modernizing the University education system, especially the new vision of the National leaders in the advent of Globalization and Liberalization.

The vision of the college is to create a mighty educational institution providing opportunities to the students, like innovation, and the ability to analyse and enhance capabilities. The college offers instruction in all the important core subjects at the Degree level. It has two P.G courses conferred Autonomy by UGC and Accredited with B Grade by NAAC, Bangalore in IInd Cycle.

The forerunners of the College are the late Dr. P.V.N. Raju, a great patriot and educationist, the late Dr. N.S.R.Sastry, the former President, Dr.P.Chiranjeevini Kumari, Secretary & Correspondent of the college and other veteran members of the Governing Body.

About the FDP

The professional world is always evolving, and today that evolution is largely spurred by advances in technology. Despite this, today's emerging skills are more about emphasizing innately human capabilities than manipulating machines.

The top emerging skills identified in the World Economic Forum's Future of Jobs report suggest that many professionals should look to developing their soft skills to enhance existing expertise.
