STUDENT INDUCTION PROGRAM

Ideal College of Arts & Sciences (A), Kakinada, recognizes the significant challenges that students face when transitioning from school to college life. To address this crucial phase, the college organizes an annual Student Induction Program. This program aims to facilitate a smooth adjustment for new students and help them feel comfortable in their new academic environment.

The transition to higher education involves students from diverse backgrounds, each with unique thoughts and preparations. Many are unfamiliar with the college setting, making it essential to guide them through this transformative period. The Student Induction Program plays a pivotal role in welcoming newcomers, instilling the institution's ethos and culture, fostering connections with peers and faculty, and exposing them to a broader sense of purpose and self-exploration.

The primary purpose of the Student Induction Program is to assist new students in adapting to their new roles and surroundings. The term "induction" refers to the comprehensive process through which students acclimate to their roles and the college environment. This well-planned event serves to educate new entrants about the institution's environment and establish connections with the people within it.

The program begins before regular classes start, engaging with new students as soon as they enter the institution. During the induction, students gain insights into institutional policies, processes, practices, culture, and values. Mentor groups are formed, providing a support system for students as they navigate their initial days in college. The overall goal is to create a positive and inclusive environment that encourages new students to feel confident, connected, and prepared for their academic journey at Ideal College of Arts & Sciences (A), Kakinada.

Inauguration Of Student Induction Program

Inspiring Speech by Guest of honor, Dr P.ChiranjeeviniKumari, Secretary and correspondent, Ideal College of Arts & Sciences, Kakinada

Welcome Speech by Principal

Familiarization with College and Departments (PPT)

Presentation by Dr M.Sulakshana, Lecturer, Department of Botany in I B.Sc, B.Zc
