NFFD Overview :	:	National Fish Farmers Day is celebrated every year on 10th July to show solidarity with fishermen, fish farmers and all stakeholders across the country. 63rd National Fish Farmers Day is being celebrated across the country. On 10th July 1957 at Angul, Odisha, for the first time in the country, Prof. Dr. This annual event is celebrated in memory of Hiralal Chaudhary and his colleague Alikunhi. Carp pituitary hormone extract in major carp breeding. This technology was later standardized and fine-tuned by developing a synthetic hormone for quality seed production across the country. This pioneering work of induced breeding over the years has shifted the growth of the aquaculture sector from traditional to intensive aquaculture practices and led to the success of the modern aquaculture industry.
