(A.P. Govt. Aided., Autonomous & NAAC B)
Dr . P V N RAJU VIDYAPRANAGANAM
Samalkot Road, KAKIANDA

Webinar Report

Webinar on Data Science using R Programming Language

Date : 12.12.2020

Resource Person	:	Smt P Prameela Assistant Professor, Govt., Polytechnic College, Vogulavari Palli, YSR District
Venue	:	Ideal College of Arts and Sciences(A), Kakinada
Objectives	:	Objectives of the Seminar is to discuss importance of R programming Language in statistical software and data analysis tool
No of Faculty Members enrolled	:	51
No. of Students enrolled	:	111
Target Participants	:	Faculty members and Students of Various institutions
Outcome of the Event	:	The Participants gained Knowledge on Data Science using R programing.
DSRPL Overview :	:	Data science has emerged as the most popular field in the 21st century. Because there is a need to analyze and build insights from data. Industries transform raw data into structured data products. To do so, several important tools are needed to transform the raw data. R is one of the programming languages that gives you an intensive environment to investigate, process, manipulate and visualize information.
